

5th INTERNATIONAL SCIENTIFIC CONGRESS “GLOBALISTICS-2017”: GLOBAL ECOLOGY AND SUSTAINABLE DEVELOPMENT

SEPTEMBER 25-30, 2017

INFORMATION FOR PARTICIPANTS

The 5th International Scientific Congress “Globalistics-2017” will be held on September 25-30, 2017 at the Lomonosov Moscow State University traditionally organizing and hosting the Congresses “Globalistics” since 2009. In the Year of Ecology proclaimed for 2017 by the Decree of the President of the Russian Federation Vladimir Putin thus drawing attention to environmental problems and the necessity to maintain the ecological diversity and to protect the global ecological security, the Congress “Globalistics-2017” will focus on global ecology and sustainable development.

2017 marks memorable dates for the scientific community in Russia and in the whole world: the centennial anniversaries of the October Revolution in Russia, of the birth of outstanding scientists - Ilya Romanovich Prigogine (1917-2003) and Nikita Nikolaevich Moiseyev (1917-2000), as well as the 125th anniversary of another famous researcher Nikolay Dmitrievich Kondratyev (1892-1938), 160 years of the Great Russian researcher Konstantin Eduardovich Tsiolkovsky (1857-1935) and 95 years of the Soviet and Russian scientist Alexander Alexandrovich Zinovyev (1922-2006).

The International Scientific Congress “Globalistics” is held under the auspices of UNESCO and serves as the world’s leading scientific platform aiming at the exchange of scientific knowledge & expertise and at the development of international cooperation in the area of global studies. Together with the Lomonosov Moscow State University, the Congress is co-organized by the E. M. Primakov National Research Institute of World Economy and International Relations of the Russian Academy of Sciences and the Moscow State Institute of International Relations (MGIMO University).

The Congress is organized in cooperation with the Russian Academy of Sciences and the Commission of the Russian Federation for UNESCO. Its partners also are the International Global Research Academy, the Russian Ecological Academy, the V. I. Vernadsky Non-Governmental Ecological Foundation, the Russian Philosophical Society, the International Global Studies Consortium, the International Scientific Community "Global Studies Conference", the N. D. Kondratyev International Foundation, the Pitirim Sorokin-Nikolay Kondratyev International Institute, the International public organization "Eurasian Commonwealth" and other organizations. Among the information partners of the Congress are the Information Center of UN in Moscow, the journals: "Alma Mater" (Bulletin of Higher Education), "International Affairs", "The Age of Globalization", "Strategic Priorities", "The Partnership of Civilizations", MSU Vestnik (Scientific Bulletin, Series 27 “Globalistics and Geopolitics”), Internet portal “World Science and Technology” and others.

In the Year of Ecology in the Russian Federation, the Russian Ecological Academy and the Lomonosov Moscow State University are launching the International Scientific and Educational Project "Think Globally!" At the first stage, from January to August 2017, a competition among young scientists, students and postgraduates will be held. The competition will be directed to identify and promote the projects, pilot studies and ideas of practical application in the field of efficient use of energy and resources, clean industries, ecological education, awareness and social initiatives. The topics of the competition nominations will be closely linked to the agenda of the Congress. The participants of the project will make their presentations on the scientific platforms of the Congress. Their results will be assessed and laureates granted awards at the Congress.

Co-Chairpersons of the Congress Program Committee:

Academician V. A. Sadovnichy – Rector of the Lomonosov Moscow State University

Academician A. A. Dynkin - President of the Primakov National Research Institute IMEMO

Academician A. V. Torkunov – Rector of the Moscow State Institute of International Relations

SECTIONS OF CONGRESS:

- I. Global ecology**
- II. Sustainable development**
- III. Global diplomacy and international relations**
- IV. Modeling and forecasting of global development**
- V. Global management and security**
- VI. Theoretical global studies**
- VII. Globalization and education**

In the framework of the Congress there will be held:

Symposium “Mega-History and Global Evolution”

XII Civilization Forum “The Strategy of the Formation of the Sustainable Multipolar World Order Based on the Partnership of Civilizations”

**Summing up of the results of the Contest “Think Globally!”
and the ceremony of awarding its laureates**

X International Conference “N. D. Kondratyev’s Scientific Heritage and Contemporaneity” and XXV Kondratyev Conference

On the XXV Kondratyev Conference will be nominated the winners of the gold, silver and bronze Kondratyev medals “For Contribution in Development of Social Sciences” and commemorative medal for young scholars.

MEMORABLE EVENTS FORMING THE SCIENTIFIC CONGRESS AGENDA

2017 marks the 100th anniversary of the birth of the outstanding mathematician of the Russian origin **Ilya Romanovich Prigogine** (1917-2003). His name was given to the Institute of Complex Systems Mathematical Research (IMISS) of the Lomonosov Moscow State University. The research conducted at the IMISS focuses on the spectral theory of operators and its application in dynamic systems. The areas of research include development of mathematical apparatus for description of complex processes in biology and medicine; creation of effective technologies for recognition of images and processes in the management of nonlinear dynamic systems; cross-disciplinary forecasts of development for Russia and other countries.

2017 also marks the 100th anniversary of the birth of the prominent Soviet and Russian scientist in the field of general mechanics and applied mathematics, alumnus and professor of the Lomonosov Moscow State University - **Nikita Nikolaevich Moiseyev** (1917-2000). His field of study included applied mathematics; computer numerical methods in the field of theory and methods of calculation for management systems and trajectories of space objects, theory of optimal control, modeling of the global phenomena of dynamics of the biosphere and its stability in case of anthropogenic impacts (in particular, models of "nuclear winter"); global ecology and global evolutionism.

2017 is as well the year of the 125th anniversary of the birth of the outstanding representative of the Russian school of economic thought at the end of 19th and early 20th centuries, the world famous, great Russian scientist **Nikolay Dmitriyevich Kondratyev** (1892-1938). His scientific works reflected the results of researches in the following areas: laws and regularities of statistics, cyclic dynamics and socio-genetics; study of "big economic cycles", or long waves in business environment (subsequently, called "Kondratyev cycles"); theory of anticipation (forecasting), issues of economic planning; economic environment, agrarian problems, history of social development doctrines; general systems theory and sociology.

This year we are celebrating the 95th anniversary of the birth of **Alexander Alexandrovich Zinovyev** (1922-2006), graduate and professor of the Lomonosov Moscow State University. The sphere of his scientific interests were multi-valued and non-classical logics, logical physics and the analysis of the language and sociology, studies of the social structures and processes, of problem of globalization. In his works he analyzed various aspects of the economic globalization. He is well known as the novelist and as a founder of a new genre – sociological novel.

2017 marks 160 years since the birth of the eminent Russian scientist and thinker **Konstantin Eduardovich Tsiolkovsky** (1857-1935), a representative of the Russian cosmism and founder of Russian cosmonautics, talented inventor and engineer, the author of more than 600 scientific works. He elaborated problems of aeronautics and cosmonautics and proved the necessity of the creation of the orbital stations and outer space exploration. He performed the calculation of the all-metal airship and aircraft, analyzed the structure of living organisms depending on their size and gravity. He developed the first aerodynamics laboratory in Russia and built the first Russian wind tunnel.

These remarkable researchers came to an extremely important conclusion that remains relevant today: the prospects for solution of global issues, finding a model of sustainable development, ability to live in harmony with nature – they all considerably depend not only on the collective consciousness of society, but also on the self-consciousness of each individual taken separately. A key to success here is to form a world outlook concept founded on achievements of globalistics as an interdisciplinary sphere of scientific knowledge. Ability to predict results of the acts, eminence of internal culture, self-perception as a part of fragile global system – all these are important qualities which humans must acquire in their efforts to create a progressive society.

DRAFT PROGRAM
OF THE INTERNATIONAL SCIENTIFIC CONGRESS “GLOBALISTICS-2017” ON:
GLOBAL ECOLOGY AND SUSTAINABLE DEVELOPMENT
September 25-30, 2017
Lomonosov Moscow State University

September 24- 25
Arrival and accommodation of participants

September 25

16.00-17.00	Registration	Foyer, Plenary Hall, Intellectual Center and Fundamental Library (ICFL) of the Lomonosov Moscow State University, ground floor.
17.00-20.00	Solemn Opening Session of the Congress	Plenary Hall ICFL, ground floor

September 26

10.00-13.00	Plenary Session of the Congress	Plenary Hall ICFL, ground floor.
13.00-14.00	Lunch	
14.00-15.30	Congress’ Panels	Transformable Hall ICFL, ground floor and other auditoria.
15.30-16.00	Coffee-break	
16.00-18.00	Congress’ Panels	Transformable Hall ICFL, ground floor and other auditoria.

September 27

10.00-13.00	Plenary Session of the Congress	Transformable Hall ICFL, ground floor and other auditoria.
13.00-14.00	Lunch	
14.00-15.30	Congress’ Panels	Transformable Hall ICFL, ground floor and other auditoria.
15.30-16.00	Coffee-break	
16.00-18.00	Congress’ Panels	Transformable Hall ICFL, ground floor and other auditoria.

September 28

12.00-14.00	Organisational arrangements	Transformable Hall ICFL, ground floor.
14.00-15.00	Lunch	
16.00-19.00	Solemn Closing Session of the Congress	MSU Cultural Center Concert Hall, Historical Building, ground floor

September 29
 Excursion program for participants from other cities and countries

September 30
Departure of participants

GUIDELINES FOR PARTICIPATION AND ABSTRACT SUBMISSION

1. Russian and foreign scientists, scholars, researchers, teachers, undergraduate and postgraduate students whose area of scientific interests involves the research of global problems, including global ecology and sustainable development, are invited to participate in the Congress.
2. The participation in the Congress is free of charge and does not require any participation fee.
3. Participants submit their applications and abstracts by the form approved by the Organizing committee on the <http://lomonosov-msu.ru/eng/event/4050/>, or to the Organizing Committee on: congress2017@fgp.msu.ru
4. All abstracts will be published in the electronic book and will be placed in the Scientific Electronic Library eLIBRARY and Russian Science Citation Index database.

THE CONGRESS GOES UNDER THE AEGIS OF THE UNESCO

United Nations
Educational, Scientific and
Cultural Organization

ORGANIZERS:

CO-ORGANIZERS:

OUR PARTNERS:

LIST OF MAIN ORGANIZERS AND PARTNERS OF THE CONGRESS “GLOBALISTICS-2017”

- The Lomonosov Moscow State University
- E. M. Primakov National Research Institute of World Economy and International Relations of the Russian Academy of Sciences
- Moscow State Institute of International Relations (MGIMO University)
- The Russian Academy of Sciences
- The Commission for UNESCO of the Russian Federation
- The International Global Research Academy
- The Association of Scientific and Educational Centers of BRICS
- The Russian Ecological Academy
- The Russian Geographical Society
- The Russian Philosophical Society
- The Pitirim Sorokin-Nikolay Kondratyev International Institute
- The V. I. Vernadsky Non-Governmental Ecological Foundation
- The N. D. Kondratyev International Foundation
- The International Public Organization "Eurasian Commonwealth"
- The Information Center of the United Nations, Moscow
- The "Alma Mater" Journal (Bulletin of Higher Education)
- The "International Affairs" Journal
- "The Age of Globalization" Journal
- The "Strategic Priorities" Journal
- The "Partnership of Civilizations" Journal
- Vestnik Moskovskogo Universiteta. Series XXVII. Global Studies and Geopolitics Scientific Journal
- “Science and Technology” Internet Portal (<http://www.strf.ru>)
